Willis & Walsh, CPAs was established in 1987 by Larry Willis and Susan Walsh (now Susan Gollnick.) The two partners are supported by a team of well-qualified accountants and office administrators. Each team member is involved in a rigorous training schedule which includes outside and firm-sponsored courses and on-the-job training.

Our clients range from small, single-owner businesses to medium and large-size companies.

A key value to the client is the planning process. As a team, we meet with our clients and map out an extensive accounting and tax strategy, keeping the client updated on tax and business issues.

Willis & Walsh believes a year-round commitment keeps lines of communication open between the client and our firm. We pledge that our fees will be competitive and the quality of our work superior.

We offer:

- **Free** initial consultation
- **Free** review of past financial and tax information
- **Free** estimate of fees for services

More key services:

- Business set-up/procedures
- Budgeting/cash flow projections
- Quickbooks training and set-up
- Explore financing alternatives
- Acquisition planning and assistance
- Exit Strategy – planning and assistance
- Investment planning
- Financial reporting
- Tax projections
- Retirement and estate planning
- Loan packages and presentation
